ALTERNATE					
	F	Yes	NS	1/05	Certified IRB Professional.

IRB membership is consistent with the requirements of 21 CFR 56.107 and 45 CFR 46.107.

- The IRB has more than five members.
- The members have diverse and varied backgrounds.
- There are both men and women on the board.
- At least one member's *primary concern* is *self-declared* to be in a non-scientific area. (IRC accepts the declaration of members as to the “primary concerns” they bring to the IRB deliberations.)
- All regular members are unaffiliated with IRC\* except for their IRB membership; no two are affiliated with the same institution.
- No member will participate in a review, except to provide information, if that member or a the members immediate family has a financial or professional interest in the study or the sponsor.

---

IRC policy is not to include member names on the roster. All detail necessary to fulfill sponsor requirements regarding knowledge of membership is provided.

---

IRC reserves the right to modify this list at any time.  
 IRC reserves the right to add consultants to advise the IRB about local conditions or on complex issues requiring expertise beyond that available on the board.
